**Wet Labs** (*held during Cataract Surgery: Telling It Like It Is 2019*)

Wet labs offer unique opportunities to engage in one-on-one discussions with expert instructors. Choose from 32 different courses, so you can customize your education to best meet your objectives. There are three different types offered – didactic featuring structured presentations, wet labs offering hands-on practice, and brief trials highlighting new technologies. All of these courses are designed to help raise your skills and outcomes, so make sure you reserve a seat as soon as possible.

You must be registered for the meeting before you can register for wet labs, which are optional add-ons. Some wet labs require an additional fee as indicated below. You must register in advance to reserve your space. Each wet lab has a limited number of seats available, so please register as early as possible to ensure your participation. Once a wet lab has reached its maximum seating, it will be marked as “full” on the registration form.

**Registration is open at** [https://www.healio.com/meeting/tellingitmeeting/welcome](https://www.healio.com/meeting/tellingitmeeting/welcome)
